

WHAT HAVE WE BEEN UP TO?

FANS FOR SALE

We have 4 FP712/N4B fans available for delivery or collection to anyone who requires a fan to operate at a maximum of 220 degrees C, a fan to suit airflow of up to 27,000m³/h. We can also offer discounts for the larger quantity, and optional silencers which fit to the inlet of the fan reducing the operating noise.

PFE PLUG FAN

Check out our brand-new series of plug fans 'PFE' available in many sizes up to 1600mm. The highest efficiency ever seen on a plug fan with the top performances you are used to from us. This could be a solution for your industrial applications which may have constraints of limited available spaces. Available both standard and special arrangements e.g. design temperature up to 450°C, special materials, explosive environments and much more.

RECENT PRESS RELEASES

ATEX 3G/3D FANS

Ferrari have now standardised their 3G/3D ATEX certified fans. These fans are available with a selection of motors. These fans are suitable for zone 2 hazardous areas. We have made it easier to enquire about them with our enquiry form which you can find on our website.

MAINTENANCE OF FANS

Do you carry out the regular maintenance that is required to keep your fans running efficiently and properly? If not you should get in contact with us, can offer suggested maintenance schedules or even send an engineer to service your fan.

LOCKDOWN 3.0

This year has been an unusual one and we are getting back to normal. With COVID-19 shutting our factory for several weeks in 2020 and having to work from home the situation has been a stressful one for us all. Hopefully, we are now getting back to some sort of normality, our factory is open and has caught up on any delays shutdown caused and we are back on track and ready for your enquiries.

Please feel free to contact us, we are here to help.

For more information on these products, or any other products and services, please contact us or visit our website for more details.
